
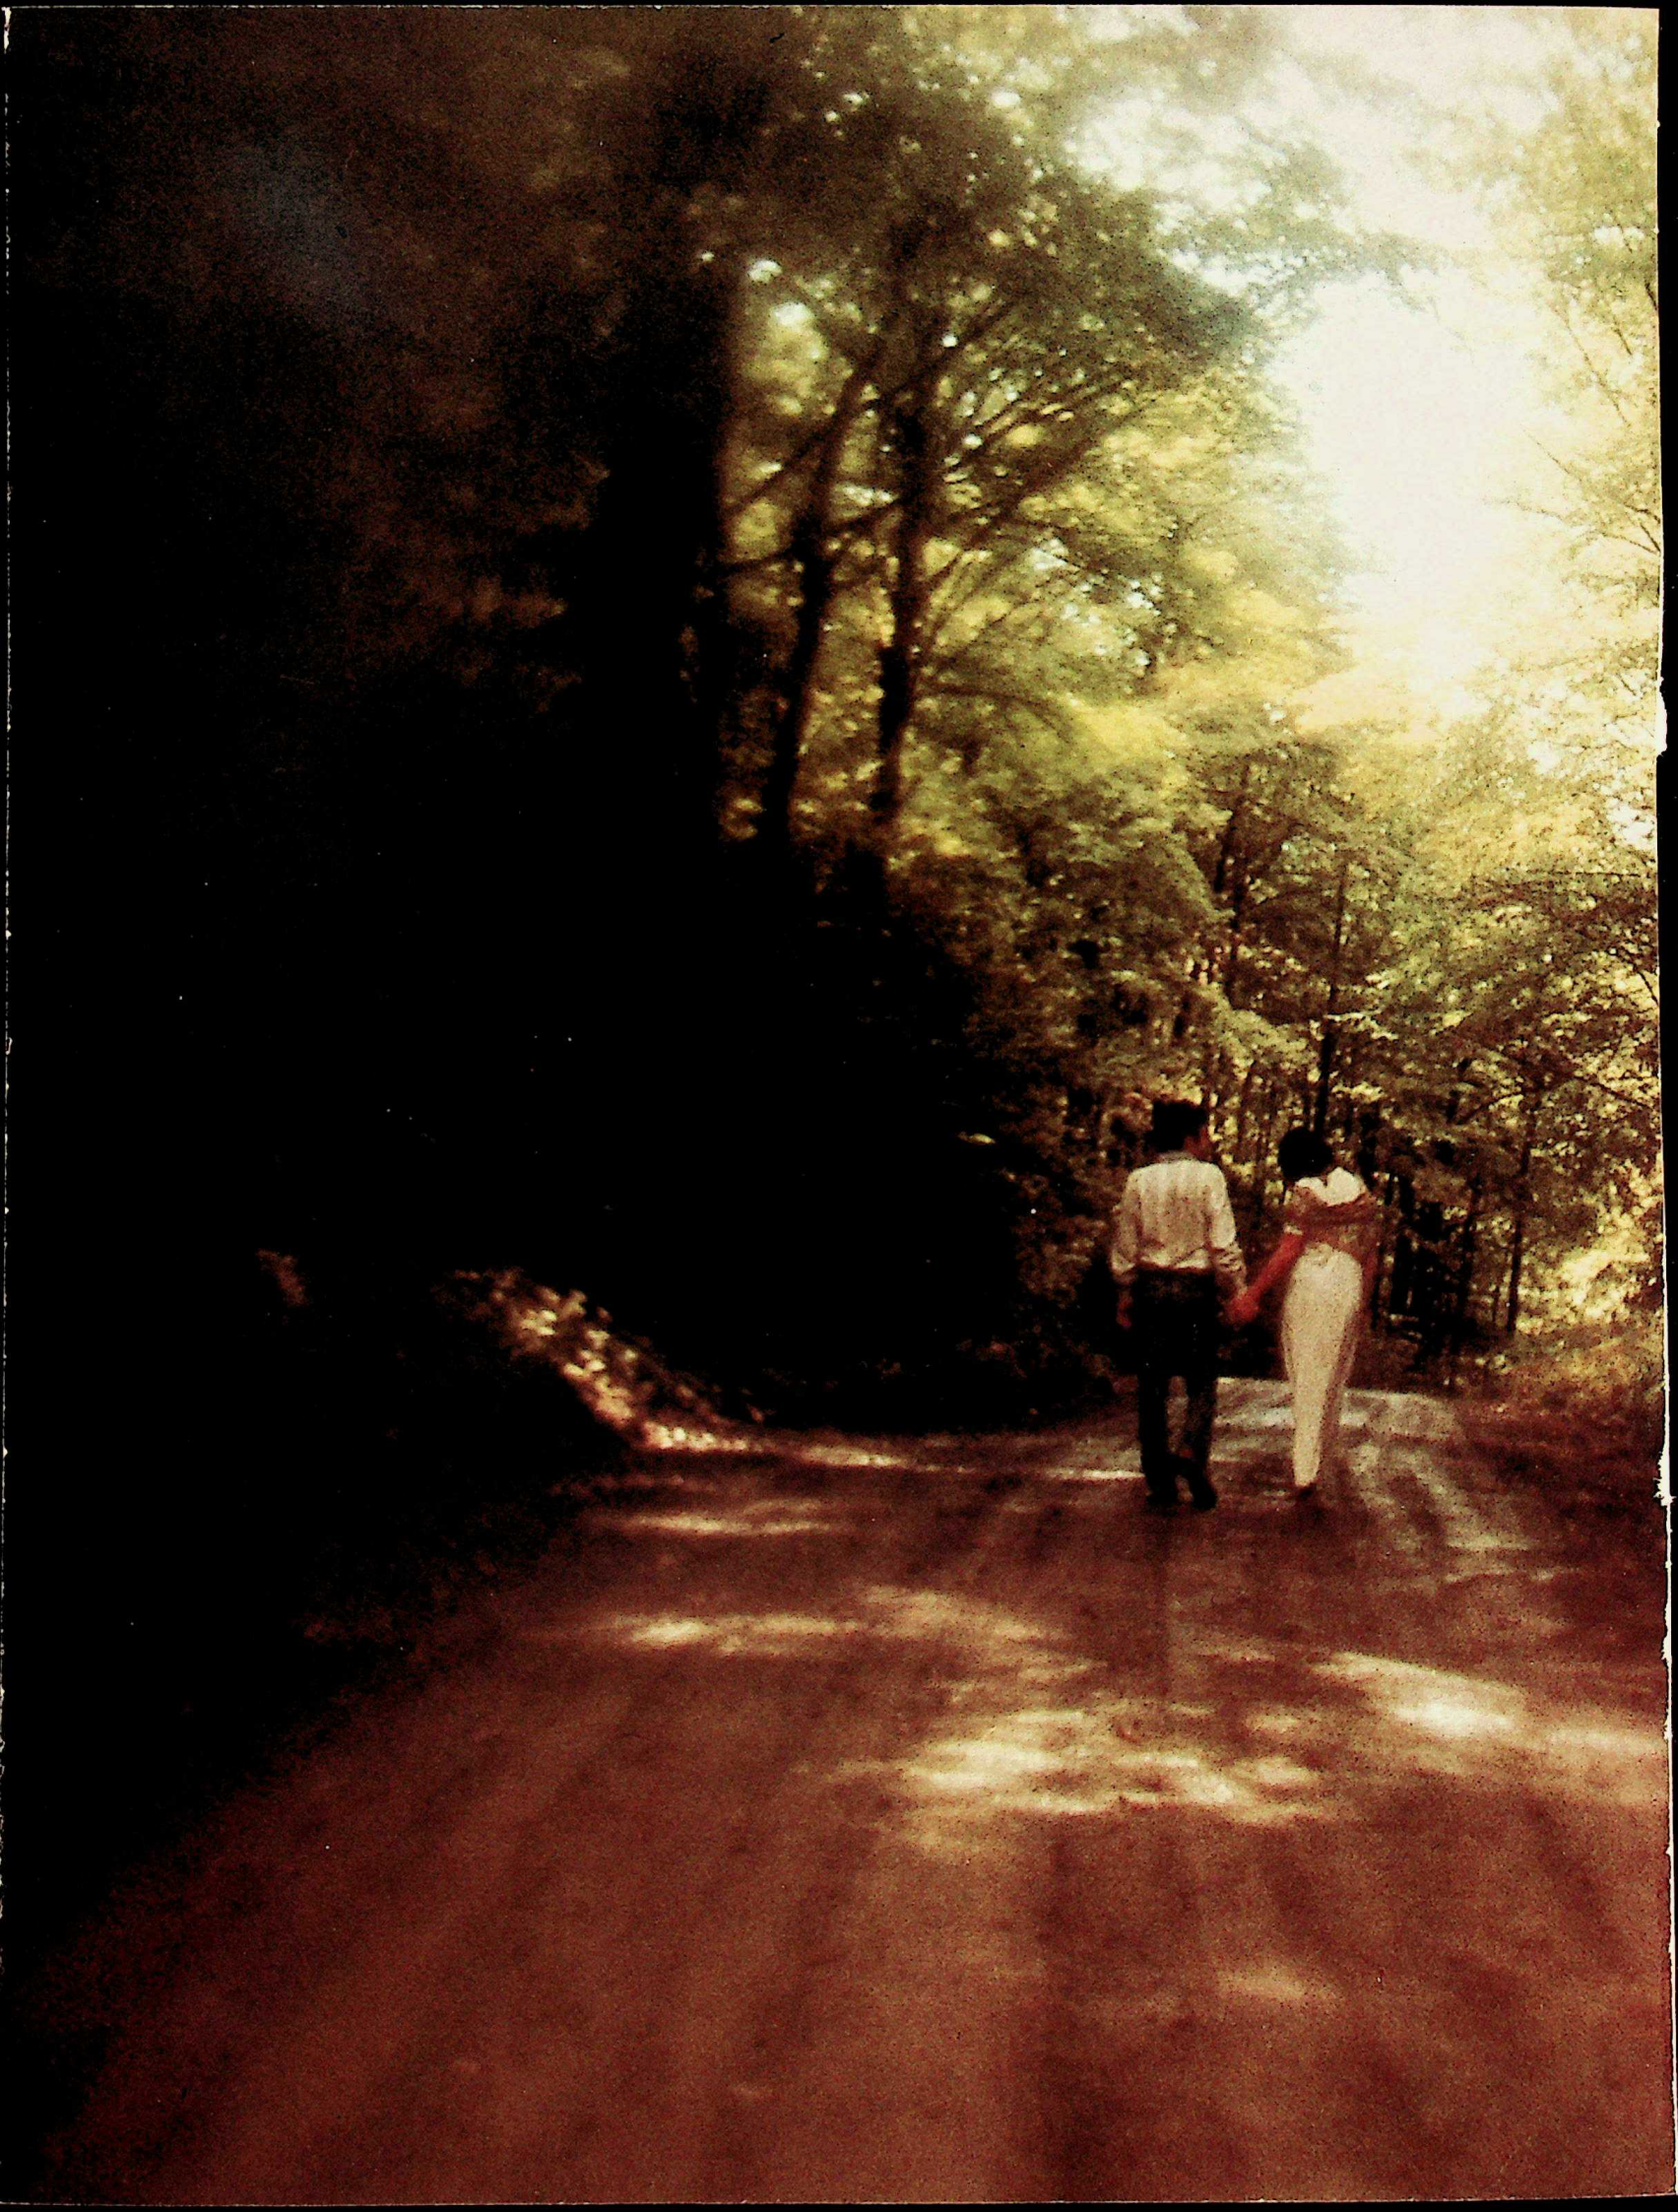
ALBERTA SCHOOL FOR THE DEAF '79



Dedication

Dedication

Mr. Mason, who is deaf, is a teacher of Science and has taught in our school since 1963. He is also the supervisor of the senior department. He is our counsellor for the Yearbook Club.

Our yearbook staff would like to thank him for helping us and encouraging us this year.

In Memoriam

Died May 5, 1979

Miss. Helen F. Kerr, a recent employee of the Alberta School for the Deaf died durning the past weekend. Miss Kerr, employed as Teacher-Librarian at A.S.D. had been with us only a short time as a wage employee while a position re-classification request was in progress.

Miss. Kerr's death has saddened all of us. We have appreciated her efforts toward her work in the A.S.D. Library, and we will be better for having experienced her company even for a very short while.

Dear Graduates:

As your attendance at the Alberta School for the Deaf ceases, I welcome this opportunity to extend my greetings to you. Regardless of whether you have attended A.S.D. for a short time or for your entire education, our school is proud of the personal, social and educational growth it has seen in you. The people of A.S.D. have laboured hard to help you achieve to the best of your abilities. You presently reflect the success of your own efforts and those of the staff.

Each year at graduation time I emphasize that your education does not end with graduation from school. Each of us continues to learn each and every day. Please continue to use your intelligence, continue to question, to consider and to act as you have been encouraged and guided in the ability to do those things by your experiences here.

Our school looks forward to many positive experiences with you in the future.

All best wishes for success in whatever you attempt to do in your life.

Sincerely yours,

K. W. BOESEN
Superintendent

It is a pleasure for me to contribute to the 1978-79 Alberta School for the Deaf Yearbook.

You, the students of the Alberta School for the Deaf have continued to hold high standards of excellence achieved by your classmates in former years. Some of you have achieved fine academic records; some of you have excelled in Industrial Arts and work experience; others have excelled in physical education and drama, all of you have grown in civic responsibility and social competence as you have worked, lived and played together.

The teachers and staff of the school are proud of your achievements. May I congratulate you on their behalf for a fine record. Your parents and relatives are concerned that you continue to achieve high standards, and that the school and staff strive to keep abreast of the latest developments in education of the deaf, so that present and future students will be able to take their places as productive citizens in Alberta.

To the graduating students - I hope that you look back on the years at A.S.D. as some of the happiest year of your lives. I wish you success in your future studies and preparations toward your chosen career.

The Senior Department

We the members of the Senior Department teaching staff regard this school year as one of the most productive years in the history of the Alberta School for the Deaf. The students have again demonstrated their ability to shoulder heavy academic responsibilities while finding enough time to keep several significant extracurricular activities going. They have gained so much knowledge and skill in a wide variety of activities that there is very little for educated outsiders to show our students how to do things. There are several excellent leaders among the older students, and because of their willingness and enthusiasm, they have helped the younger students to develop better study habits and to assume more and more responsibities in school organizations and related activities. There is evidence of excellent fellowship among the students as well.

Very good academic performance and extracurricular activities through the students efforts are what made this school year one of the best.

The efforts that you, our students, have put forth this year are very much appreciated by all of us. Thank you.

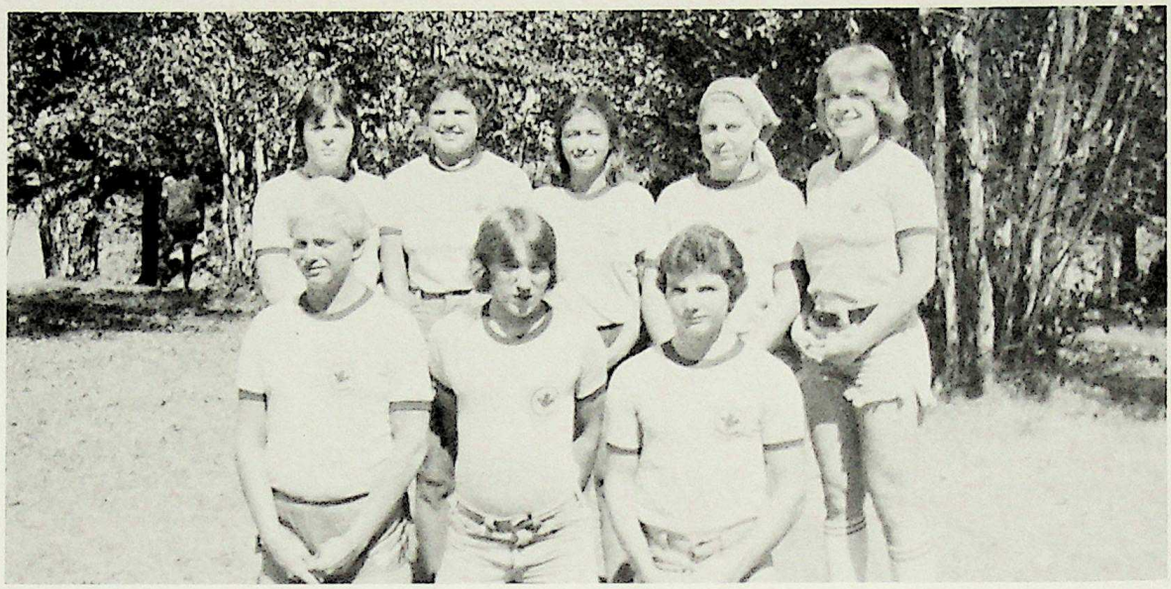
Leadership group 78



Leadership Group '78 Patricia Shores, Chairman

Our organization, Alberta chater of the Canadian Deaf Youth Leadership Group was established four years ago. The first camp was held in 1975.

The primary purpose of this group was to raise funds to send selected potential leaders to the camp. We earned our funds by every possible way - bottle and newpaper drives, car washes, sales with the help of parents and students.

The Leadership Camp '78 was held at Clear Lake, Manitoba with eight of us attending. Randy Dziwenka, Cindy Jamieson, Scott Jamieson, Laurie Hughes. Brian Brindza, Debbie Evans, Heather Bouten, and Patricia Shores represented Alberta. Six provinces sent their delegates to this camp, and there we met many new friends of our own age.

At the camp we were introduced to the concept and signifiance of leadership - group activities, postive communication, the development of motivation, problem solving, and action planning. We learned to share and work together in a group.

Two from our group won as the most outstanding Camper, one for the females and one for the males at the Canadian Deaf Youth Leadership Camp That achievement was, in some way, due to the guidance and teaching from our staff at A.S.D.

Joe McLaughlin, the prgram director, and his staff are responsible for our achievements at A.S.D. by creating healthier organizations and developing high - quality skills in organizational works For example, we worked out a weekend leadership workshop for those older students who did not have the opportunity to attend the summer camp. This will be held from May 11 to 13 in 1979

Leadership Group '78 wishes Leadership Group '79, other organizations, and finally to Grads '79 much good luck and success.

I hope that you will profit from the Canadian Deaf Youth Development Program and become self-starting deaf leaders encouroging and helping other deaf Youth.

Remember this:

What you learn here...about yourself... about others... is not something you will be able to forget. But, don't keep it to yourself. Practice what you learn and tell your schoolmates.

School Year History
1978-1979

This is the first graduating student to be a historian. I want all of you to know what has happened since last September.

Class of '79 has the largest number of students in the history of ASD. We plan to go to camp at Gull Lake this weekend to celebrate.

We have our 185 students in the Junior Wing to Senior Wing and Learning Centre, and some are day students and other are residental students.

In our school, we have students taking high school courses; we also have students who go 1/2 day in our school and 1/2 day in other vocational school like W.P. Wanger, LYC Cairns and Victoria High School. All the students have plans for next year.

For first time this year we established a Optional program for every Wednesday afternoon and we enjoyed very much learning things like weaving, French, tennis, games, and racquetball,etc. We are hoping that the program will continue this fall.

All the older students of our school joined the Student Council, and it went very well . Some younger students have been in Brownies and Cubs.The leadership camp project is really successful and 8 of our students will go to camp near Montreal this summer. They had raised their own fund. Our students develop own yearbook this year and we are sure it has really been successful since 1974 and hope it will continue next year.

During the year, our teams in volleyball, soccer, and basketball competed against public school teams and played well, winnig several times. Track and Field in May and some students go and compete against public schools.

From fall to june I think it has really been an exciting year for us and we enjoyed learning many different things and, also we enjoyed being in the Student Council and Class of '79. We will miss our school and hpoe your school would be successful again in many activites next year. Good Luck.

Finally we were happy to know that our school will have the 25th anniversary celebration starting next year. Let us join together in celebrating the anniversary.

Shauna Jensen

Historian

Honored guests, Members of the government, Parents and relatives, Mr. Boeson and members of the Faculty, Fellow Graduates and friends, For the past 15 years, the Graduating Class of 79 has been preparing for this day. Today we are entering a bigger world. Our high school years are ending. Our theme "We've only just begun" seems appropriate for this big step in life. Like mentioned in our poem, there will be many roads to choose- some with academic preferences will seek higher education; some with mechanical aptitude will select the trade fields, and others will gain more personal experiences in other fields. The Class of 79 is the largest graduating class ever in ASD history. The majority of us have entered here after leaving oral programs in other schools and/or coming from foreign countries.

Without your support, this occasion would have been impossible. If not for the Alberta Government's support, we would have been placed in a regular school and may have become less active people who may not have been able to contribute much in the society because of limited access to communication. We would like to express our sincere thanks for this school where many deaf children can be with their own friends. It compares well with the hearing schools in the huge world. Alos an important "thank you" to the parents group whose aim is to help our school meet its needs.

We would like to salute Mr. Boeson and his staff for letting us have a higher education; as a result eight of us have completed grade 10 and 11 acamedic work. Those who have gone through hardships in hearing schools with the help of interpreters and in correspondence courses, have succeeded, not only with their courses, but we have also overcome many of ou our frustations. The teachers and counsellors deserve their "thank you" for their hard work that made possible our high achievement.

Our thanks go to mr. Eckelson and his staff for keeping the ASD campus in great shape and to the kitchen staff for feeding us with their excellent meals; to the caretakers who make our classroom clean and sparkling that our learning atmosphere is comfortable; our gradeners who please our eyes with the beautiful gardens since "our eyes are our ears"; the nurses who take care of us, and other employees who work with us.

We cannot think of a perfect special thank-you for the last group, ourparents and houseparents; it is they who help us grow in a world where language is based chiefly on sound. Our achievement in catching up with our society is in large part due to our parents' efforts in helping us out. Our special thanks to the parents of the residental students; they make a great sacriface in sending their own children to this school to gain a wholesome education. Their hearts might besore when letting their small child go, but in the end, they see their decision a good one because the child now knows his world after learning at ASD. Yet we has ASD prepared for us for the world we soon enter as adults. In our classes we have gathered knowledge about many subjects. We base our decision for our future living on this knowledge. Through interaction with parents, teachers, houseparents, classmates and friends, we learn to understand the value of relationships with people. Through many involvments in ASD's organizations we have learned basic values- co-operation, patience, leadership, anthusiasm, decisionmaking, respect, self- confidence, and participation. These important values are needed for our future planning and decision-making.

Ever since the beginning of the world, people have been struggling to be free-free to choose their government, free to worship in their own way and free to speak and write their own throughs. We look forward to a world founded upon four essential human freedoms.

Freedom of speech and expression- this school allows us something very important- total communication by which both deaf and hearing parties can understand.

Freedom of worship, freedom of want- this school has openèd the door of learning for us . We learnto try to fit into the hearing world. Freedom of fear- our country, Canada is experiencing properity and peace. In communicating, we can express our hopes and fears in Ameslan. It is our language. ASD is one of the few schools in the world that permit the use of Ameslan.

We must be more aware of the world by becoming more involved in our society, simply in order to cope with a possible nuclear war, the depleting job market, high inflation, and the weakening Canadain unity. One of our responsibilities is to choose work that will enable us to make the best use of our abilities. We can begin now to help prevent waste of human resources by taking advantages of opportunites to develop our abilities through education. Ourpresent employment trends call for more education and higher levels of skills. than ever before. Not only brillant people are needed in our society, we need all kinds of people to operate our economy. For instance, the director of a company cannot go ahead without the skills and co-operation of the employees.

Rooseveld mentioned that he would be willing to fight to maintain freedoms. He would rather die on his feet for his belief than to live on his knees. So we would like to preserve our language, Ameslan and maintain our deaf rights and equality. When we reminisce about our golden days in ASD, we may remember both our laughter and our tears, but must always remember to put our knowledge to use for today and tomorrow.

On behalf of this graduating class, I salute you all and thank you all.

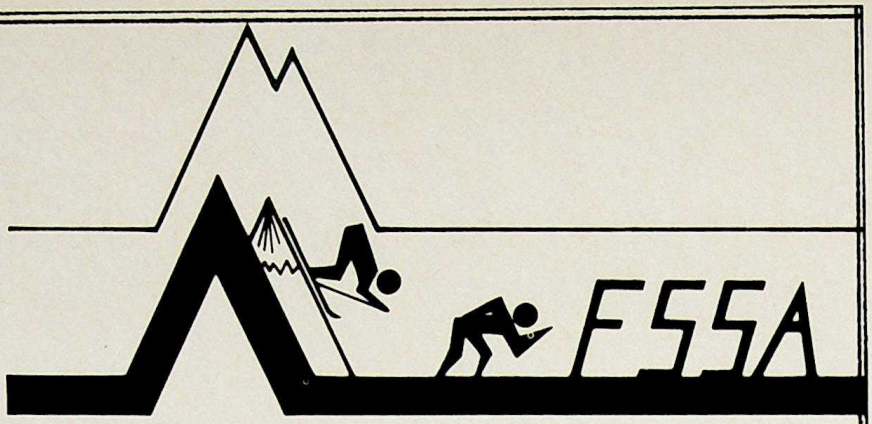
ALBERTA SCHOOL FOR THE DEAF

"A UNITED FUND AGENCY"



The Federation of Silent Sports of Alberta opens a door widely to all those interested students in the Alberta School for the Deaf. It is essential that you maintain physical fitness and recreation in the deaf community during your life time. Please join us and enjoy many memorable opportunities. The FSSA offers some activities such as curling, slo-pitch, hockey, racquetball, bike-a-thon all year round. The membership fee for adults over 18 years is five dollars and for youngsters is half price.
Be a part of us!

Recreationally yours,
